Wordpress

EDUCATION

December

2015 - 2019

FPT University

Software Engineer

I learned more about object-oriented programming, process design and development, programming languages: C, Java, C#, MSSQL. I quickly acquired and used these languages quite well in my projects.

Capstone project:

A system for sharing, hiring construction equipment with MySQL, Java, ReactJS, Elastic search, Google Cloud Message, APNs.

Team size: 4
